

Rotary Air Compressors

3HP to 600 HP and more, we can supply the equipment best suited to your requirements.

Compressed Air Dryers

Refrigerated or Desiccant dryers provide quality air to meet the strictest requirements.

Oil-Free Compressors

An oil-free design delivers energy and cost savings through high efficiency rotors and anti-friction bearings for long life and smooth operation.

Vacuum Systems

Oil flooded and oil-less designs available for industrial uses.

High Pressure Piston Systems

Reciprocating air and gas compressors specializing in industrial, off shore and naval applications. 200-6000 PSI

Reciprocating Compressors

Rugged and reliable best describe the Champion line of reciprocating light industrial compressors.

Centrifugal Blowers

We are ready to provide you with an Engineered Centrifugal Blower or Air Knife Solution anywhere at any time.

Nitrogen Generators

Save money with PSA and membrane nitrogen generators.

PET Compressor Systems

Hope Air Systems has four decades of experience designing and building PET compressed air systems for the plastic bottle manufacturing industry.

Compressed Air Equipment & Service

- Air Compressors
- Hydraulics/Lubrication
- Electrical Controls

Rely on us for your air compressor needs

Hope Air Systems offers a complete line of air compressor systems and accessories to meet critical manufacturing needs for its customers.

- Any manufacturer
- Genuine/After Market
- Vacuum - 5000 PSI

We also provide the equipment and components needed for any mechanical room including:

- Air treatment
- Blower packages
- Piping
- Vacuum systems

Hope Air Systems is committed to bringing the finest equipment to its customers representing the finest manufacturers:

- AF Compressors
- Becker Vacuum Systems
- Champion Piston
- Kaeser Rotary
- Kobelco Oil-Free
- Parker Pneumatics
- Sauer High Pressure
- Sonic Air Systems
- Summit Lubricants

Service/Emergency
508-393-7660

Preventive Maintenance

Our experienced field service technicians service all brands of compressor air equipment including Kaeser, Sullair, Atlas Copco, Gardner Denver, Champion, Ingersoll-Rand and many more.

Emergency Service 24/7

Our field service technicians service all of New England and are available 24 hours a day, 7 days a week. Call for service anytime: 508-393-7660

Installations

Our engineers, technicians, and field service team can design, configure, and install air compressors, dryers, and piping systems for any industrial application, including full turn-key if needed.

OEM Parts

Our part department specialists know what you need and where to get it. We can source genuine OEM parts to meet performance and budget requirements.

After Market Parts

Our parts department can source belts, filters, oil, filter elements, gauges, and other components that keep your air compressor system functioning at peak performance.

Rentals/Lease

Our rental fleet includes rotary, piston, and oil-free air compressors for short-term use or as a back-up for increased demand situations.
