

Engineered Systems

Hydraulic & Pneumatic Motion Control System Solutions

From our 60,000 square foot ISO 9001:2000 certified facility, The Hope Group's sales specialists, engineers, technicians and customer service team members are ready to design, fabricate, install and maintain your engineered hydraulic or pneumatic control system. Featuring Parker Hannifin's broad array of hydraulic, pneumatic, automation and instrumentation products, The Hope Group stands ready to provide solutions to industrial, mobile and marine markets.

The Hope Group relies on quality Parker components and its own in-house team of design, mechanical, hydraulic and pneumatic engineers to develop hydraulic/automation systems solutions for its OEM and MRO customers. Applications include aerial lifts, boat-building, construction equipment, fork trucks, off road vehicles, specialty vans, utility vehicles and more.

The Hope Group is a UL and CE certified electronic panel designer/fabricator. We can provide any customer with custom-built electrical/electronic control boxes, panels and enclosures. These units can be stand-alone or integrated as part of a hydraulic, pneumatic or electromechanical control system.

The Hope Group can design and build motion control systems for any requirement. Our website (www.thehopegroup.com) describes all of our capabilities including:

- PLC and Operator Interface
- Machine Automation
- Tube Assemblies/Harnesses/Bundles
- Valve Assemblies
- Pneumatic Panel Assemblies
- Mobile Hydraulic Systems
- Hydraulic Hose Assemblies

Hydraulics

The Parker Hydraulics Group designs, produces and markets a full spectrum of hydraulic components and systems to builders and users of industrial and mobile machinery and equipment.

Pneumatics/Automation

The Parker Automation Group is a leading supplier of pneumatic and electromechanical components and systems to automation customers worldwide.

Fluid Connectors

The Parker Fluid Connectors Group designs, manufactures and markets rigid and flexible connectors, and associated products used in pneumatic and fluid systems.

Instrumentation

The Parker Instrumentation Group is a global leader in the design, manufacture and distribution of high quality critical flow components for worldwide process instrumentation, ultra-high-purity, medical and analytical applications.

Filtration

The Parker Filtration Group designs, manufactures and markets quality filtration and clarification products, including Racor filters, which provide customers with the best value, quality, technical support and global availability.

Seals/O-Rings

The Parker Seals Group designs, manufactures and distributes industrial and commercial sealing devices and related products by providing superior quality and total customer satisfaction.
