

# Technical Seminars

## Making Your Air System More Efficient

### PURPOSE:

To introduce the benefits of identifying and measuring air system efficiency

### SEMINAR CONTENT:

This seminar will provide an overview of 10 key points on creating savings, both in the air compressor room, and in the plant area. This presentation will help the air compressor operator better understand how compressor controls really work. Participants will learn about measuring air usage and how to control it. Participants will learn about inappropriate use of compressed air and what to know before contacting the power company for potential government mandated energy rebates. Everyone will leave with enough information to take the next step for air system efficiency.

### WHO SHOULD ATTEND:

Maintenance Personnel, Plant Managers, Air Compressor Operators, Production Managers

### SCHEDULE:

PORTLAND MAINE  
(The Leen Co Office)

Thursday, Oct 2, 2008 8:00 to 9:30

NORTHBOROUGH, MASS  
(The Hope Group Office)

Wednesday, Oct 8, 2008 10:00 to 11:30  
Thursday, Oct 9, 2008 10:00 to 11:30

### To Register:

[www.TheHopeGroup.com](http://www.TheHopeGroup.com)

### REGISTER For Technical Seminars

- Compressed air piping
- Compressor energy costs
- Hydraulic plumbing
- Industrial Electro-hydraulics
- Instrumentation
- Mobile Electro-hydraulics
- Nitrogen generators
- O-Ring Sealing Technology
- Pneumatic Automation
- Supply Chain Solutions

### ATTEND Trade Show Exhibit

Visit our 5,000 square foot exhibit area for a motion and control trade show highlighted by a dozen Parker Divisions.

### RIDE Motion Simulator

Experience the thrill of a Motion Simulator ride on the Parker Tech Tour truck.
