

# Technical Seminars

## O-Ring Sealing Technology

### PURPOSE:

To provide instruction and technical training for all aspects of o-ring sealing

### SEMINAR CONTENT:

The seminar will be conducted by a Parker Technician from the O-Ring Division in Lexington, KY. Topics covered include material selection, gland and hardware design, application specific criteria and guidance in the best use of the Parker O-Ring handbook and design software. Static, dynamic and vacuum applications will all be covered in depth during the two hour session. The following handbooks and guides will be distributed: Parker O-ring handbook, Material Selection Guide, O-ring handbook CD and Engineered Sealing Solutions.

### WHO SHOULD ATTEND:

Engineers, Technicians, Product Managers, Product Designers
