KAESER
COMPRESSORS

Saving Energy with Air System Piping

PURPOSE:

To introduce the energy saving techniques available through common sense design and new technology

SEMINAR CONTENT:

For many companies, the average air compressor system is not planned; it just happens. This session will give air compressor operators a chance to look at how to correct their air system to minimize pressure drops and to reduce compressor room power costs. There is potential savings up to 25 percent with correct system design. The seminar will introduce the benefits of SmartPipe, an aluminum pipe that allows quick and efficient changes and upgrades.

WHO SHOULD ATTEND:

Maintenance Personnel, Plant Managers, Air Compressor Operators, Production Managers

SCHEDULE:

PORTLAND MAINE
(The Leen Co Office)
No Seminar in Portland

NORTHBOROUGH, MASS
(The Hope Group Office)

Wednesday, Oct 8, 2008 8:30 to 9:30
Thursday, Oct 9, 2008 8:30 to 9:30

To Register:
www.TheHopeGroup.com

REGISTER For Technical Seminars

- Compressed air piping
- Compressor energy costs
- Hydraulic plumbing
- Industrial Electro-hydraulics
- Instrumentation
- Mobile Electro-hydraulics
- Nitrogen generators
- O-Ring Sealing Technology
- Pneumatic Automation
- Supply Chain Solutions

ATTEND Trade Show Exhibit

Visit our 5,000 square foot exhibit area for a motion and control trade show highlighted by a dozen Parker Divisions.

RIDE Motion Simulator

Experience the thrill of a Motion Simulator ride on the Parker Tech Tour truck.
