7 Strategies for Vendor Managed Inventories

PURPOSE:

To introduce the specific solution strategies to improve the supply chain challenge

SEMINAR CONTENT:

This seminar will share seven specific strategies that manufacturers can implement to improve their supply chain challenges. Through a better understanding of the supply chain, participants will learn techniques that will consolidate their supply base, reduce material costs from seven to 15 percent, reduce WIP inventory from 20 to 25 percent, slash lead times 50 percent and eliminate manufacturing overhead to procure, receive and handle thousands of inventory and expense items.

WHO SHOULD ATTEND:

Production Managers, Purchasing Managers, Buyers, Senior Management, Company Owners and anyone interested in reducing the cost of the supply chain through a vendor managed inventory.
