Patented Pump Design Provides for a Cooler Running Pump

- Patented piston design for improved compression efficiency
- Cast iron cylinder head with patented deep-groove directional cooling fins
- Precision bored cylinders with patented asymmetrical cooling fins
- Balanced flywheel with large glass-filled composite fan for improved pump cooling

Industrial performance delivers maximum CFM @ 175 PSI

Provides enough power to operate more than one air tool or device at one time

Baldor industrial class electric motor

4 pole, 1770 RPM, UL certified, NEMA rated

Equipped with pre-wired and mounted magnetic starter—saves time and money!

2 year limited warranty
