

Diagnostic Meter

Parker Service Master

Fast measuring and analysis capability coupled with a more efficient and user-friendly interface. This multi-channel instrument offers accuracy, expanded memory and intuitive performance to meet your most demanding expectations.

Offering the latest in sensor recognition technology, the Parker Service Master gives you the ability to measure and store data relating to pressure, flow, temperature and rotational speed simultaneously, or switch between them with ease. On site data storage – has never been easier or as powerful. The 0.25 ms scanning rate catches even the most instantaneous pressure spikes, flow surges and temperature changes. More than one million data points allow you to store or download the data to your PC.

Senso Control

Parker's Senso Control product line is a valuable tool for diagnosing problems both before and after they occur. Today's hydraulic and pneumatic systems are continuously becoming more complex. The ability to identify critical information for optimizing machine efficiencies is a necessity. The Parker Service Master and Senso Control product line offer an excellent alternative to conventional mechanical pressure gauges. The Parker instruments are ruggedly built and can withstand even the most demanding environmental conditions.

Reduced machine downtime during initial set-up, trouble shooting and maintenance procedure mean increased productivity. You can rely on Parker for a complete line of hydraulic and pneumatic diagnostic equipment. With this equipment you can take critical measurements from your system with just a push of a button. Parker diagnostic tools are designed to identify hard-to-detect variations and peaks in pressures, temperatures and flow.

Model SCM-340-2-02 Features:

Ideal for both hydraulic and pneumatic systems

- Easy, intuitive operation
- Large legible display
- Auto sensor recognition
- MIN/MAX Memory
- Multiple sensor inputs
- Battery monitoring
- Plug and Play Software Recognition
- Simultaneous Multi-line Display
