

Fractional

TSLOTS by Futura Industries offers a large selection of high-quality aluminum extrusions in fractional sizes all made in the USA. Our fractional line is fully compatible with products from other competitors. We offer 10-Series & 15-Series TSLOTS and all the brackets, fasteners, hardware, hinges and stanchions you need to complete your customized project.

F.A.S.T. Guard System

F.A.S.T. Guard System offers a wide range of machine and perimeter guarding options to ensure a safe work environment. Panels assemble and install easily from standard components. Partitions can be constructed of wire mesh screens, protective panes or panels, and then mounted directly into TSLOT profiles that have already been integrated into a system.

Framing And Safety Technology

The F.A.S.T. Guard System offers a fast and easy way to anchor TSLOTS extrusion to the ground and to attach and hang the assembled panels to the extrusion. The F.A.S.T Guard frame profiles offer an additional slot to securely support the mesh or panels.
