

HAND SANITIZER

LIQUID

FEATURES AND BENEFITS

- For use when you don't have ready access to soap and water
- Helps prevent the spread of infectious diseases
- Alcohol-Based Liquid
- Evaporates Quickly
- Can be used anytime and anywhere
- FDA-approved formula

PRODUCT DESCRIPTION

ASHBURN HAND SANITIZER is an alcohol-based liquid hand sanitizer that evaporates quickly. It is recommended for repeated use to help decrease bacteria on the skin.

Active Ingredient: Ethyl Alcohol 80%

DIRECTIONS

Apply a "palmful" to one hand - enough to thoroughly cover both hands. Spread on both hands including front and back of hands, thumbs and fingers. Rub hands together briskly until dry.
